

MARLONE TROY DOMINGUIANO

AI-Assisted Full Stack Developer | AI Content Creator | Prompt Engineer

Email: marlonetroy00@gmail.com

GitHub: github.com/troy-23

Portfolio: dev-mtmd-portfolio

Instagram: @lone.yort

PROFILE

Graduating developer focused on AI-assisted full stack web development, prompt engineering, and AI content creation. Builds practical landing pages, business websites, e-commerce concepts, automation workflows, and generative media using modern AI tools and production web stacks. Strong at turning unclear ideas into prompts, prototypes, deployed products, and content systems.

CORE SKILLS

Web Development: React, TypeScript, Next.js, Vite, Tailwind CSS, shadcn/ui, Framer Motion, GSAP

Backend and Data: Supabase, PostgreSQL, authentication concepts, API development, edge functions

AI and Prompting: OpenAI, Claude, Gemini, prompt design, AI-assisted coding, workflow planning

AI Content Creation: Veo, Pika, ElevenLabs, CapCut, scriptwriting, voice synthesis, product animation concepts

Deployment and Tools: Vercel, Cloudflare Workers, Docker, GitHub, Cursor, Copilot, Windsurf, Codex

Technical Support: PC assembly, hardware troubleshooting, diagnostics, software setup

SELECTED PROJECTS

Kensei - Product Mockup Website

React, TypeScript, Tailwind CSS

- Built a modern product storytelling mockup with refined typography, clean UI structure, and AI-assisted content direction.
- Used AI-assisted workflows to move from concept planning to responsive implementation and deployment.

YortyCollects - Collectibles E-Commerce Platform

React, Tailwind CSS, AI-assisted content workflow

- Created an e-commerce concept for a collectibles business with storefront structure and product-focused presentation.
- Supported real business content direction through AI-generated media ideas and product animation planning.

Casimiro GPU Repair Shop - Service Landing Page

React 19, TypeScript, Vite 6, Tailwind CSS v4, GSAP, Framer Motion, Vercel

- Developed a professional repair shop landing page with service-focused copy, responsive layout, and scroll animations.
- Deployed the site on Vercel and structured the page for fast scanning by potential customers.

2K26 Pilot Service - Service Landing Page

React 19, TypeScript, Vite 6, Tailwind CSS v4, Vercel

- Built a modern landing page for a game service offer with clear positioning, fast load times, and responsive UI.

Maritime AI Video Demo

ChatGPT, Gemini, Pika, ElevenLabs, CapCut

- Produced an AI-assisted video workflow from concept planning and scriptwriting to voice generation, visuals, and final editing.

EXPERIENCE

Freelance AI-Assisted Developer and Content Creator

Project-based | Web development, AI workflows, content production

- Delivered practical websites, prototypes, and landing pages for small business and creator-focused use cases.
- Used AI tools to accelerate requirements planning, copywriting, UI ideation, code implementation, debugging, and iteration.
- Created AI-assisted scripts, voiceovers, visual concepts, and product content for social and business channels.

EDUCATION

Graduating student pursuing work in software development, AI-assisted development, prompt engineering, and AI content creation.
